(54) SHOPPING BAG

(57)Abstract:

PROBLEM TO BE SOLVED: To provide a shopping bag wherein an article can be quickly received and sealed, dust may not attach to the article and the article may not be lost from the bag carelessly.

SOLUTION: A bag has a bag body 1 comprising two surface and rear synthetic resin films 4 and a handle 2 comprising two surface and rear synthetic resin sheets 3. The two synthetic resin sheets 3 forming the handle 2 are fused to the inside of an upper part of the two synthetic resin films 4 forming the bag body 1. A rear finger hole 9 is provided by punching on the handle 2 on a rear side. A surface finger hole is provided on the handle on a surface side opposite to the rear finger hole 9. A finger hole sealing piece 10 is formed by punching the surface finger hole with a rim of the surface finger hole left. The finger hole sealing piece 10 is passed through the rear finger hole 9 and overlaid on a rim of the rear finger hole 9 to provide a joint means for joining the finger hole sealing piece 10 with the rim of the rear finger hole 9.
